

a book by AREY, PATA HAI 🛃

Helloooo from Swati, Mohit & Nipun!

We started **Arey Pata Hai?!** in March 2023 as a simple idea of sharing interesting information in a fun way. We are grateful to you for showing so much love on the quizzes we play on social media.

We know you play our quizzes virtually by guessing the answers with us (sometimes also screaming?) from your screens.

This ebook is our first attempt to go one step ahead and actually let you play these quizzes with yourself or your family & friends.

This ebook has a collection of some of the most loved & exciting questions from our quizzes. Hope you enjoy quizzing here as much as we loved making it.

## HOW TO USE THIS BOOK?

This book contains 100 quiz questions, divided into ten interesting categories. You can use this book in two different modes.

#### SINGLE PLAYER MODE

Challenge yourself.

Every question is on its own separate page, with its answer on the next page. Scroll through every question, and answer them to see how many can you answer correctly out of 100.

#### MULTIPLAYER MODE

Invite two or more of your friends and challenge them with these questions.

For every question, whoever answers first, gets a point, and the other person gets a punishment. Please come up with a creative punishment for the maximum fun.

In the end, whoever has the most points takes home the trophy!

**GUESS THE LOGOS** 

### What is the colour of a Polar Bear's skin under its fur?

### Black

Beneath all that thick fur, polar bears have jet black skin. The polar bear's fur is also translucent, and only appears white because it reflects visible light.

## Which animal has fingerprints so similar to humans that they can confuse crime scene investigators?

### Koala

## KOALA

### HUMAN

## What is the world's largest mammal?

### **Blue Whale**

## What is the largest land mammal?

### **African Elephant**

## Which bird can swim but cannot fly?

### Penguin

Penguins are birds, so they do have wings. However, the wing structures of penguins are evolved for swimming, rather than flying in the traditional sense.

## What body part does a butterfly use to taste?

#### Feet

Yes, butterflies taste with their feet. They have taste sensors, or chemoreceptors, in their feet. These sensors allow butterflies to detect whether a plant is sweet, bitter, sour, or salty.

## What is the world's smallest bird?

## **Bee Hummingbird**

The aptly named Bee Hummingbird, found only in Cuba, is only about 2 inches long and weighs less than 2 grams!

# What does a camel store in its hump?

#### Fat

Contrary to popular belief – a camel's hump does not hold water at all – it actually stores fat. The camel uses it as nourishment when food is scarce. If a camel uses the fat inside the hump, the hump will become limp and droop down. With proper food and rest the hump will return to normal.

# What is the colour of a Giraffe's tongue?

## Purple

## How many legs does a spider have?

## Eight

## Who was the first person to travel into space?

## Yuri Gagarin
